INDEPENDENT AUDITORS' REPORT

To the City Council
City of Eureka, Illinois

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Eureka, Illinois** (City), as of and for the year ended April 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our unmodified and qualified audit opinions.

Basis for Qualified Opinion on General Fund

Management has elected not to include certain required report disclosures about the City's post-employment health insurance benefit in the General Fund, as these disclosures would require the services of an actuary. The modified cash basis of accounting requires that these disclosures be made. The amount by which this departure would affect the assets, fund balance, and revenues of the General Fund has not been determined.

Qualified Opinion

In our opinion, except for the effects of the matter described in the “Basis for Qualified Opinion on General Fund” paragraph, the financial statements referred to previously present fairly, in all material respects, the modified cash basis financial position of the General Fund of the City of Eureka, Illinois, as of April 30, 2017, and the changes in modified cash basis financial position thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Unmodified Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund other than the General Fund, and the aggregate remaining fund information of the City of Eureka, Illinois, as of April 30, 2017, and the respective changes in modified cash basis financial position and, where applicable, cash flows thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Eureka, Illinois’, basic financial statements. The other information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of General Fund Expenditures – Modified Cash Basis – Budget and Actual on page 58 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of General Fund Expenditures – Modified Cash Basis – Budget and Actual is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The remaining other information listed in the accompanying table of contents has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The discussion and analysis of the City of Eureka's financial performance provides an overview of the City's financial activities for the fiscal year ending April 30, 2017. Please read it in conjunction with the City's financial statements which follow.

FINANCIAL HIGHLIGHTS

The City's total revenues exceeded total expenditures for General Fund activity by \$160,806. The Enterprise Fund Departments' revenues exceeded expenses by \$195,730 for the fiscal year ending April 30, 2017. The end result is a slight increase in total cash and investments of 7% in the General Fund for a total of \$245,379 over the previous year and a 33% decrease in Enterprise cash from the previous year for a total of \$496,910. It is important to note, that while Enterprise revenues appear to have exceeded expenses, the Cash Flow Statements illustrate that several Enterprise expenses were capitalized as assets. The Enterprise Fund for waterworks and sewerage actually spent more than it created in revenues.

On May 1, 2015, the City initiated a stormwater utility. This newly created utility assesses impervious surface as measured by Equivalent Residential Unit (ERU). The ERU is 3,250 square feet, and each parcel owner pays \$6.00 per ERU. This revenue is used exclusively for stormwater utility repair and maintenance. The need for this utility has been clearly documented in the last several years as the City has experienced a series of stormwater pipes collapsing underground. These events have led to continued discoveries of pipes in dire need of repair, replacement or upsizing. Through the process of establishing this utility, the City identified several areas that are the most flood-prone in terms of stormwater. Those areas have an estimated repair cost in excess of 5 million dollars.

The City has continued its efforts to control and reduce annual operating expenses along with the Mayor and Council requiring management to operate under a balanced budget. It has also become

apparent that with growing needs for repairs of aging systems within the Enterprise departments of water, sewer and stormwater, rates will need to increase or alternative sources of funding will need to be considered to cover these capital improvements.

The overall financial position of the City has remained solid with the evaluation by management of current resources and needs.

- The City has continued the contract for this fiscal year for police protection with Eureka College. The City received \$68,000 to provide this service for Fiscal Year 2017. The City has designated the excess of the revenues over direct costs for the purchase of future police vehicles and equipment; as of April 30, 2017, the City has a balance of \$129,756. The contract began in the fall of 2005. The Eureka College expenditures for Fiscal Year 2016-2017 totaled \$53,245.
- The General Fund received \$40,446 from the Community Unit #140 School District for a cost share on the continuation of the School Resource Police Officer. The Agreement will be continued until the end of the 2018 school year. Following this three year agreement, there will be a reevaluation to determine the continuation of the School Resource Officer position.
- The City slightly decreased the property tax levy in Fiscal Year 16-17 to be collected in Fiscal Year 17-18. The property tax levy was decreased by \$623 to \$470,058. With the current City assessed valuation increased by \$2,462,493 to \$72,770,463, the property tax rate will be .6463 for Fiscal Year 17-18. The property tax rate for Fiscal Year 16-17 was .6698, thus the rate decreased by .0235 for this current year.
- The City has two outstanding loans for the City of Eureka Revolving Loan program which is a Community Development Assistance Program, Revolving Loan Grant (CDAP). The account has \$84,573 available to loan for a local business project. The outstanding loans are in the amount of \$72,510. The most recent loan was made to SmartEarth Technologies (DBA SoBrite) to retain the business location in Eureka. The City of Eureka was contacted in October 2016 by the Department of Commerce and Economic Opportunity (DCEO) to inform Eureka that the City was no longer required to report to the DCEO regarding CDAP. This program has been federally funded by the U.S. Department of Housing and Urban Development (HUD). Per HUD Notice CPD 04-11, if the revolving loan fund program was capitalized prior to October 1, 1992, it no longer holds a federal identification and may be expended in any manner deemed appropriate by the community. At this time, nothing has substantially changed about the City's revolving loan fund but the City no longer has to restrict the usage of these funds. As this is the only economic development tool that the City uses, it is likely that it will remain intact until other tools emerge.
- The City personnel expenses for salaries in Fiscal Year 2016-2017 decreased over the Fiscal Year 2015-2016 salaries by \$3,406. This decrease is due to several factors which include conservative increases, careful hiring practices, human resource management, reduction in overtime needs due to a mild winter, and the loss of a salary for long time water superintendent. The City has continued to keep personnel expenses at a minimum.

- In 2005, the City instituted a cost share with the employees for health insurance coverage. The employee contribution is thirty (30) percent of the premium for an employee's spouse or family coverage and the City contributes seventy (70) percent of the health insurance premium. The health care cost for Fiscal Year 2016-2017 was \$18,363 more than spent in Fiscal Year 2015-2016. The City has worked with insurance agents to find the most competitive rates. The City was given yet another year extension before having to convert to the Affordable Care Act (ACA). Health insurance costs are on the rise, trending at a 15% increase annually. The City was satisfied with the plan over the previous year and retained the plan. This change resulted in an increase of 12% for health insurance.

ANNUAL REPORT

The annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34. GASB Statement 34 implements a model of financial reporting for state and local governments designed to enhance the usefulness of the City's annual report.

Report Components

This annual report consists of five parts as follows:

Government-wide Financial Statements: The Statement of Net Position (page 12) and the Statement of Activities (page 13) provide information about City activities on a government-wide basis and present a long-term view of the City's finances.

Fund Financial Statements: The Financial statement focus is on the individual parts of the City government. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City's most significant funds. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. For proprietary activities, these statements offer short-term and long-term financial information about the activities of the City operated businesses; the water and sewer utilities.

Notes to the Financial Statements: The notes to the financial statements are an integral part of the government wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Other Information: The Management Discussion and Analysis, General Fund Budgetary Comparison Schedule, and pension-related schedules represent financial information required to be presented by the GASB. Such information provides users of this report with additional data that supplements the government-wide statements, fund financial statements, and notes referred to as the basic financial statements.

The budget to actual comparison of General Fund expenditures, information required by general obligation bond ordinance, and a schedule of insurance policies in force are also provided to address certain specific needs of various users of the City's annual report.

Basis of Accounting

The City has elected to present its financial statements on a modified cash basis of accounting. Basis of accounting is a reference to when financial events are recorded, such as the timing for recognizing revenues, expenses and their related assets and liabilities. Under the City's modified cash basis of accounting, revenues and expenses and related assets and liabilities are recorded when they are received and spent for all cash transactions, with a provision for depreciation in the government-wide and proprietary fund statements.

As a result of the use of modified cash basis of accounting, certain assets and their related revenues, such as accounts receivable and revenue for billed or provided services not yet collected and certain liabilities and their related expenses, such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities are not recorded in these financial statements. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the modified cash basis of accounting.

The Government-wide Statement of Net Position and the Statement of Activities

Our financial analysis of the City as a whole begins with the government-wide financial statements within the audited financial statements. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all of the City's assets and liabilities resulting from the use of the modified cash basis of accounting.

These two statements report the City's net position and changes in them. Keeping in mind the modified cash basis of accounting, one can think of the City's net position or the difference between assets and liabilities (and deferred inflows and outflows) as one way to measure the City's financial health or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. One will need to consider other non-financial factors, however, such as changes in the City's sales tax base and the condition of the City's utility system to assess the overall health of the City.

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities:

Governmental activities - Most of the City's basic services are reported here, including the police, general administration, emergency services, streets, economic development, motor fuel tax, audit, liability insurance, retirement fund and parks. Revenue sources include sales taxes, income tax, occupational tax, property taxes, franchise fees, fines and state and federal grants.

Business-type activities - The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's Enterprise Fund water and sewer system and Enterprise Fund stormwater are reported here. To aid in the understanding of the Statement of Activities, some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. One will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net Expense/Revenue. The reason for this kind of format is to highlight the

relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self financing through fees and grants or contributions. All other governmental revenues are reported as general. It is important to note that all taxes are classified as general revenue even if restricted for a specific purpose.

Reporting the City's Most Significant Funds

The Fund Financial Statements

Our analysis is of the City's major funds financial statements with detailed information about the most significant funds, not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, the City Council establishes certain other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

The City's two kinds of funds, governmental and proprietary, use different accounting approaches.

Governmental funds - Most of the City's basic services are reported in governmental activities, which focus on how money flows into and out of those funds and the balances left at year end that are available for spending. These funds are reported using the report of the acquisition of capital assets and payments for debt principal as expenditures and not as changes to asset and debt balances. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps one determine through a review of changes to fund balance whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship or differences between governmental activities reported in the Statement of Net Assets and the Statement of Activities and governmental funds in reconciliation at the bottom of the fund financial statements. The City considers the General Fund and the Motor Fuel Tax Fund to be major governmental funds.

Proprietary funds - When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. For example, proprietary fund capital assets are capitalized and depreciated and principal payments on long-term debt are recorded as a reduction to the liability. In fact, the City's proprietary (enterprise) funds financial statements are essentially the same as the business-type activities reported in the government-wide statements but the fund statements provide more detail and additional information, such as cash flows. The City has two Proprietary Funds; Enterprise water and sewer Fund and Enterprise stormwater Fund.

Fiduciary Funds - Fiduciary funds are often used to account for assets that are held in a trustee or fiduciary capacity such as pension plan assets, assets held per trust agreements and similar arrangements. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The City had two fiduciary funds at the beginning of FY 17; Community Development Assistance Program (CDAP) and Police Pension Trust Fund. At the close FY 17, the City no longer has the obligation to report to the State of Illinois for CDAP as the City

was granted the right to dissolve the fund as of October 2016. The City may now utilize the funds as it deems appropriate. Total net position of the Police Pension Trust Fund was \$570,492 as of April 30, 2017.

Financial Analysis

Total assets of the City increased by \$761,807 to \$16,684,064. This net increase is comprised of a decrease in cash and investments of \$252,052, a notes receivable increase of \$70,522, and an increase in capital assets of \$943,337. See the Statement of Net Position - Modified Cash Basis for more detail.

Total liabilities of the City decreased by \$93,804 to \$414,125; this decrease is due to the continued payment of debt service (2013 Refinanced Water Bond) during the fiscal year.

Total net position and the changes in net assets are a good way to measure the City’s financial health. Total net position of the City increased by \$855,611 (change in net position) to \$16,269,939. The amount of net position and this increase in net position illustrate the financial strength of the City. The following analysis of the City’s activities during the year provides additional information on this increase in net position.

The analysis of the City’s activities is first focused on the City as whole, and then the governmental activities and the business type activities are separately analyzed. This analysis gives detailed insight into the changes the City has made during the current fiscal year in relation to the prior fiscal year.

Government-Wide

	Fiscal Year 2015-2016	Fiscal Year 2016-2017	Percent change
Total Government-Wide			
Revenue	\$ 3,837,916	\$ 3,971,631	3%
Expenses	3,042,270	3,116,020	2%
Change in net position	<u>\$ 795,646</u>	<u>\$ 855,611</u>	8%

The revenues received in FY 2016-2017 increased 3% over revenues received in FY 2015-2016. The biggest variation can be found in Governmental Activities due to dissolving and transferring the remaining funds of \$157,083 from the CDAP Fiduciary Fund. Expenses increased by 2% with the net position showing an \$855,611 gain in revenues over expenses.

Governmental Activities

	Fiscal Year 2015-2016	Fiscal Year 2016-2017	Percent change
Revenues			
Taxes	\$2,059,461	\$2,025,341	(2%)
Charges for services	261,438	234,352	(10%)
Grants & contributions	19,314	13,798	(29%)
Interest & other	12,344	48,832	296%
	<u>2,352,557</u>	<u>2,322,323</u>	(1%)

Expenses

Streets	614,336	596,024	(3%)
Park	132,742	139,694	5%
Emergency services	4,642	7,255	56%
Economic development	13,826	23,422	69%
	<u>1,785,885</u>	<u>1,819,525</u>	2%
Transfers in	12,618	157,083	1145%
Change in net position	<u>\$ 579,290</u>	<u>\$ 659,881</u>	14%

Business-type Activities

	Fiscal Year 2015-2016	Fiscal Year 2016-2017	Percent change
Revenues			
Charges for services	\$1,483,880	\$1,490,922	1%
Interest	<u>1,479</u>	<u>1,303</u>	(12%)
	1,485,359	1,492,225	1%
Expenses			
Personnel services	319,643	309,571	(3%)
Contractual services	276,381	327,165	18%
Commodities	213,423	179,848	(16%)
Depreciation	439,920	468,520	7%
Interest	<u>7,018</u>	<u>11,391</u>	62%
	1,256,385	1,296,495	3%
Transfers out	<u>(12,618)</u>	-	(100%)
Change in net position	<u>\$ 216,356</u>	<u>\$ 195,730</u>	(10%)

City revenues in Enterprise remained flat as there was no utility rate increase in FY 17. Expenses increased only slightly due to a mix of increased contractual services and increased bond and interest payments as the city enters the last three years of payments. The change in net position is \$195,730 gained in revenue over expenses. The City focus is on minimizing operating cost while meeting the long-term maintenance needs of the system. Long-term maintenance goals for water and sewer plants and succession planning for wastewater superintendent will continue to be top priorities for the next several years. The City Council has approved a five year plan for water and sewer rate increases with a 10% increase planned for FY 18, 19, and 20 and a 5% increase planned for FY 21 and 22. These increases are necessary as the City executes its five year capital plan.

Budgetary Highlights

Some of the largest expenses in General Fund for FY 16-17 were street maintenance and replacement of vehicles and equipment, specifically the street sweeper at a cost just under \$200,000. Enterprise had some very large capital improvements which included the sandblasting and painting of the interior of the water plant, water plant roof replacement, and the building of a sewer main to serve Timber Lane & Orchard Street. The General Fund was 18% under projected expenses for the year. The Enterprise Funds remained 7% below budget expenses. The final total budget for General and the Enterprise Funds was more than the prior year budget by \$903,467. For the year ended April 30, 2017, General Fund expenditures were \$440,887 below budgeted expenditures, while actual resources available for budgeted purposes were \$280,235 below the fiscal budgeted amounts, resulting in a net budget surplus of \$160,652.

Capital assets and long-term debt

Capital Assets

At the end of April 30, 2017, the City had \$11,715,855 invested in capital assets, net depreciation, including police and equipment, buildings, park facilities, water lines and sewer lines. This year's more significant capital asset additions included:

2017 Street Sweeper	\$ 189,975
Ford Explorer- Police 2017	35,326
Hydro Jet Hose	18,483
Curb and Sidewalks	38,590
Spray Patch	67,041
MFT Seal Coat	140,298
Water Plant Roof	87,450
Water Plant Painting	260,444
Water Tower Painting	28,700
Water Main Looping	120,193
Suction Hoses	42,145
Highview/Orchard Sewer Extension	130,789
F550 Truck (Maint)	43,996
Dump Body for Trucks (Maint)	46,599
Sunset Sewer Bypass	28,659
Storm Sewer Lining	197,207
Sewer Lining	69,256

Long-Term Debt

At year end, the business-type activities had \$390,619 in long-term debt, as compared to \$485,492 at the prior year end. The long-term debt is comprised of a long-term bond issue. The long-term debt balance as of April 30, 2017, represents the 2005 Water Bond issue, refinanced in fiscal year 2014, which has maturity dates through 2020. The refinancing has shortened the terms of repayment by five years. The City has also reduced its interest payments by paying down the principal by \$300,000. No additional debt was incurred in 2017 by the governmental activities. At the close of FY 17, the City has a remaining balance of \$416,588 in principal and interest.

Economic Factors and Next Year's Budget and Rates

Significant economic factors affecting the year ending April 30, 2017:

- The utility rate was not increased on May 1, 2016. However, the Eureka City Council is committed to the continuation of incremental annual increases to water and sewer rates. Increases are to support the operating expenses, bond debt, and provide surplus for future capital expenditures.
- A Stormwater Utility was initiated on May 1, 2015 to pay for the upgrades, additions and maintenance needed for the City's stormwater mains. The rate has a base unit of \$6.00 and units are determined by amount of impervious surface.
- State income tax decreased by \$47,653, gaming tax is now being realized through the addition of business within the City, and Local Share of IL Use Tax increased by \$7,514.

Significant economic factors expected to affect the upcoming fiscal year ending April 30, 2018:

- Some of the significant capital asset items being budgeted in governmental funds for next year are replacement police vehicle for \$35,000, water tower repairs and painting for \$650,000, a sewer plant wall upgrade to mitigate flooding for \$186,000, lining of sewers for \$58,000 and looping of water mains for \$78,000.
- The City has contracted with the school district to maintain a school resource officer in the schools and will share fifty percent of the total cost. Eureka College is continuing the contract with the City for police services for reimbursement of \$65,000 annually.
- As of December 31, 2016, the most recent actuarial valuation date, the City's defined benefit pension plan affiliated with the Illinois Municipal Retirement Fund (IMRF) was 99-percent funded, up from 94-percent funded in the previous year. The police officers in this plan were transferred to a separate Police Pension Fund during fiscal year 2013. The City has made every effort to meet the funding obligations for the Police Pension Fund ending this current fiscal year with a 96-percent funded pension for police. The City will continue to use the latest actuarial valuations to meet its funding obligations. The tax levy is the source of funding for this obligation.

Contacting the City's financial management

This report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City of Eureka Administrative office at 128 North Main, Eureka, IL 61530, telephone number 309-467-2113.

CITY OF EUREKA, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Except for the use of a modified cash basis of accounting as described later, accounting policies of the City of Eureka, Illinois (City), conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the significant policies. Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements.

A. Financial Reporting Entity

Generally accepted accounting principles require the financial reporting entity to include the primary government and other organizations for which the primary government is financially accountable (component units). Financial accountability includes the primary government's ability to appoint a voting majority of the organization's governing body and the ability to impose will on an organization if an organization is fiscally dependent on the primary government.

The City is not a component unit of any other entity. However, based on these criteria, management has determined the Police Pension Fund is a blended component unit of the City. A blended component unit, although a legally separate entity, is in substance part of the City's operations; therefore, data from this unit is combined with data of the primary government. The Police Pension Fund was established to provide retirement, death, and disability payments to the police of the City or their beneficiaries and is a single-employer defined benefit pension plan. Contribution levels are mandated by Illinois Statutes and may be amended only by the Illinois legislature. The fiscal year-end for the Police Pension Fund is April 30, and it is reflected as a fiduciary fund in the financial statements.

Complete financial statements for this component unit may be obtained at the following address:

City of Eureka Police Pension Fund
Lynn Hinnen, Treasurer
128 N. Main Street
Eureka, IL 61530

B. Basis of Presentation

Management Discussion & Analysis - Provides introductory information on basic financial statements and an analytical overview of the City's financial activities.

Government-Wide Financial Statements - The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

Fund Financial Statements - Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a

separate set of self-balancing accounts that constitutes its assets, liabilities, fund balance/net position, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the City or if it meets the following criteria:

- Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

Other Information - Budgetary comparison schedules are presented. The original and final budget for revenues and expenditures is presented in comparison with the actual final budgetary revenues and expenditures.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources and expenditures not required by law or contractual agreement to be accounted for in another fund.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The City maintains the following special revenue fund:

Motor Fuel Tax Fund - Accounts for the operations of the City's Street Department in connection with highway construction and maintenance projects authorized by the Illinois Department of Transportation. Financing is provided by the City's share of the State Motor Fuel Tax.

Proprietary Funds

Enterprise Funds - Enterprise funds are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or increase in net position is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The City maintains the following enterprise funds:

Waterworks and Sewerage Fund - Accounts for the water and wastewater operations. Revenue is provided through user charges that are designed to pay operating expenses (including depreciation of the Fund's capital assets) and provide for an increase in net position to finance the continued operations of the system.

Stormwater Fund - Accounts for the stormwater operations. Revenue is provided through user charges that are designed to pay operating expenses (including depreciation of the Fund's capital assets) and provide for an increase in net position to finance the continued operations of the system.

Fiduciary Funds

Agency Funds - Agency funds are used to account for assets held by the City in a custodial capacity (i.e., assets equal liabilities). Agency funds do not involve the measurement of results of operations. The City previously reported an agency fund for the Economic Development Grant Program (EDGP) Fund to account for community development assistance program funds awarded by the Illinois Department of Commerce and Community Affairs (DCCA). The City was acting as custodial agent for the State of Illinois. During the fiscal year, the City received a notice from the DCCA indicating the City's loan fund for the EDGP has been dissolved and the funds may be expended in any manner deemed appropriate by the City. Accordingly, the Agency Fund was dissolved, and the cash, notes receivable, and net position of \$157,083 in the Agency Fund as of April 30, 2017, was transferred to the General Fund.

Police Pension Trust Fund - Accounts for the activities of the City of Eureka Police Pension Fund, which accumulates resources for retirement, death, and disability benefits to the police of the City or their beneficiaries.

C. Measurement Focus and Basis of Accounting

"Measurement focus" is a term used to describe *how* transactions are recorded within the various financial statements. "Basis of accounting" refers to *when* transactions are recorded, regardless of the measurement focus applied.

Measurement Focus

The government-wide financial statements and fiduciary fund financial statements are reported using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as subsequently defined.

In the fund financial statements, the current financial resources measurement focus or the economic resources measurement focus is used as appropriate:

- (1) Governmental funds utilize a current financial resources measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- (2) Proprietary funds utilize an economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent, financial or nonfinancial) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the government-wide financial statements and the fund financial statements, governmental and business-type activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund balance, revenues, and expenditures/expenses when they result from cash transactions with provisions for depreciation and amortization in the government-wide statements and proprietary fund statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid and accrued expenses and liabilities) are not recorded in these financial statements.

If the City utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Fiduciary fund financial statements are accounted for using the modified cash basis.

D. Budgets and Budgetary Accounting

The budget for all governmental fund types is prepared on the modified cash basis of accounting, which is the same basis that is used in financial reporting. This allows for comparability between budget and actual amounts. The original and final budget was passed through an appropriations ordinance on April 4, 2016. For each fund, total fund expenditures may not legally exceed the budgeted expenditures. The budget lapses at the end of each fiscal year. Encumbrances accounting is not employed.

The City adopts its annual budget in accordance with Chapter 65, Paragraph 5/8-2-9.4 of the Illinois Compiled Statutes, as follows:

- (1) The budget officer submits to the City Council a proposed operating budget for the fiscal year commencing May 1. The operating budget includes proposed expenditures and the means of financing them.
- (2) A public hearing is conducted to obtain taxpayer comments.
- (3) Prior to May 1, the budget is legally adopted through passage of an ordinance.
- (4) Budgeted amounts may be transferred between object classes within a fund at any time. The annual budget may be revised by a vote of two-thirds of the City Council by deleting, adding to, or changing budgeted items.
- (5) No revision of the budget can be made increasing the budget in the event funds are not available.

The City also adopts an informal operating budget for proprietary funds containing estimated revenues and expenses, which is used as a management control device.

E. Cash and Cash Equivalents

For the purpose of financial reporting, cash and cash equivalents include all demand and savings accounts and certificates of deposit or short-term investments with an original maturity of three months or less.

F. Investments

Investments classified in the financial statements consist of certificates of deposit whose original maturity exceeds three months and pension reserve money market funds. Investments are carried at cost, which approximates fair value. The City is allowed to invest in securities as authorized by Chapter 30, Paragraph 235/2 of the Illinois Compiled Statutes. Generally, allowable investments consist of interest-bearing deposits in financial institutions; the Illinois Funds Money Market Fund; notes and bonds guaranteed by the United States of America; and, subject to certain restrictions, short-term corporate obligations and repurchase agreements with financial institutions.

G. Real Estate Taxes

Real estate taxes are a lien on individual properties from January 1 in the year in which the taxes are levied. The levy must be filed with the County Clerk by the last Tuesday in December each year. The tax levy for amounts received in the fiscal year ended April 30, 2017, was passed December 7, 2015. Due dates, by statute, are June 1 and September 1 of the following year. Generally, collections of tax monies are made within 30 to 60 days of the due dates.

The following are the tax rate limits permitted by state law and local referendum and the actual rates levied for 2015 per \$100 of assessed valuation:

City valuation	<u>\$ 70,307,970</u>		
Type of Tax	Limit	Rate	Extension
Corporate	.3330	.1029	\$ 72,347
Police protection	.1500	.0726	51,043
Park	.1000	.0188	13,218
Civil defense	.0500	.0015	1,055
Police pension	As Needed	.1038	72,980
IMRF/Social Security	As Needed	.2063	145,045
Audit	As Needed	.0228	16,030
Liability insurance	As Needed	.1411	99,205
		<u>.6698</u>	<u>\$ 470,923</u>

The City is limited under state law to aggregate indebtedness of 2.875 percent of assessed valuation. This limitation does not apply to indebtedness used to finance water and wastewater treatment facilities. The available legal debt margin approximates \$2.0 million at April 30, 2017.

H. Compensated Absences

As a result of using the modified cash basis of accounting, liabilities related to accrued compensated absences are not recorded in the government-wide or fund financial statements. Expenditures/Expenses related to compensated absences are recorded when paid. The City's policy is to permit employees to accumulate a limited amount of earned but unused vacation and sick leave, which will be paid to employees upon separation.

The estimated liability for unused vacation and sick leave of the City at April 30, 2017, is approximately \$111,000 (not reflected in the financial statements).

I. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting used by the City requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

J. Capital Assets

The City's modified cash basis of accounting reports capital assets resulting from cash transactions and reports depreciation where appropriate. The accounting treatment over property, plant, and equipment (capital assets) depends on whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, capital assets arising from cash transactions are accounted for as assets in the Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost, if actual is unavailable. Prior to May 1, 2004, governmental funds' infrastructure assets were not capitalized. Infrastructure assets acquired since May 1, 2004, are capitalized at cost.

Depreciation of all exhaustible capital assets arising from cash transactions is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives and capitalization threshold by type of asset is as follows:

	Useful Life	Capitalization Threshold
Buildings and utility plant	20-50 years	\$ 25,000
Land improvements	15-40 years	10,000
Water, sewer, and stormwater extensions	30-40 years	25,000
Equipment	5-30 years	1,000
Infrastructure	20 years	25,000

Fund Financial Statements

In the fund financial statements, capital assets arising from cash transactions acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets acquired for use in proprietary fund operations are accounted for the same as in the government-wide statements.

K. Long-Term Debt

All long-term debt arising from cash transactions to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements.

Long-term debt arising from cash transactions for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources, and payment of principal and interest is reported as expenditures. The accounting for proprietary funds is the same in the fund financial statements as it is in the government-wide statements.

L. Equity Classification

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- (1) Net investment in capital assets - Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- (2) Restricted net position - Net position with constraints placed on its use by external groups or by law through constitutional provisions or enabling legislation.
- (3) Unrestricted net position - All other net position that does not meet the definition of restricted or net investment in capital assets.

Restricted net position for the business-type activities and governmental activities is described in Notes 3 and 6, respectively.

Fund Financial Statements

Proprietary fund equity is classified the same as in the government-wide statements. Governmental fund equity is classified as fund balance. Fund balance is classified in five categories, as applicable:

- (1) Non-spendable fund balance - Amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.
- (2) Restricted fund balance - Amounts with constraints placed on their use by external groups or by law through constitutional provisions or enabling legislation.
- (3) Committed fund balance - Amounts that can only be used for specific purposes as determined by formal action (an ordinance) of the City's highest level of decision-making authority (the City Council). The committed amounts cannot be used for any other purpose unless the City Council takes the same formal action to remove or change the imposed constraints.

- (4) Assigned fund balance - Amounts intended for a specific purpose that does not meet the criteria to be classified as restricted or committed. The City Council, through ordinance establishing the City's fund balance policy, has delegated to the City Administrator the authority to assign amounts to specific purposes. Pursuant to the City's fund balance policy, any fund balance assigned by the City Administrator must be reported to the City Council at its next regular meeting. The City Council has the authority to remove or change the assigned fund balance with a simple majority vote.
- (5) Unassigned fund balance - Amounts in the general fund that have not been assigned to other funds and that have not been restricted, committed, or assigned to specific purposes in the general fund. In other governmental funds, the unassigned fund balance classification is only used, as applicable, to report a deficit balance in that fund.

As of April 30, 2017, the City's fund balances are classified as restricted, assigned, and unassigned (see Note 6).

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) fund balance is available, the City considers restricted amounts to have been spent first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, the City considers committed amounts to have been spent first, followed by assigned amounts and then unassigned amounts.

The City's formally adopted minimum fund balance policy is to maintain a minimum unassigned fund balance in its general fund equal to seven months of the subsequent year's budgeted expenditures and outgoing transfers.

M. Program Revenues

In the Statement of Activities, modified cash basis revenues that are derived directly from each activity or from parties outside the City's taxpayers are reported as program revenues. The City has the following program revenues in each activity:

General Government - Licenses and permits and specific donations

Public Safety - Fine revenue and grants from the U.S. Department of Justice and State of Illinois

Streets - Reimbursements and grants received from the Illinois Department of Transportation

Park - Rental income, recreation fees, concession sales, and specific donations

All other governmental revenues are reported as general. All taxes are classified as general revenue, even if restricted for a specific purpose.

N. Operating Revenues and Expenses

Operating revenues and expenses for proprietary funds result from providing services and producing and delivering goods and/or services. They also include all revenues and expenses not related to capital and related financing, noncapital financing, or investing activities.

O. Interfund Balances and Activities

Interfund activity and balances, if any, are eliminated or reclassified in the government-wide financial statements.

NOTE 2. CASH AND INVESTMENTS

It is the City's policy to invest public funds in a manner that will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the entity and conforming to all state and local statutes governing the investment of public funds.

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned or the City will be unable to recover collateral securities in possession of an outside party. The City's investment policy is that funds on deposit exceeding FDIC limits must be secured by collateral and held at an independent, third-party institution in the name of the municipality. Unless matched to a specific cash flow, the City will not directly invest in securities maturing beyond one year from the purchase date. Deposits of the City (primary government) are insured or collateralized with securities held by the pledging financial institution's trust department or agent in the name of the City. At April 30, 2017, the City (primary government) has approximately \$4,830,000 in deposits collateralized by pledged securities. At April 30, 2017, the Police Pension Fund's deposits are fully insured by the FDIC.

The City's cash and cash equivalents at April 30, 2017, consist of deposits with financial institutions. The City's (primary government) investments consist of two certificates of deposit at one financial institution. The Police Pension Fund's investments consist of three certificates of deposit at one financial institution. The investments have not been rated by an independent rating agency. However, as of April 30, 2017, the investments are insured or collateralized with securities held by the pledging financial institution's trust department. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The certificates of deposit have original maturities of three to five years.

The investments are reflected on the financial statements at April 30, 2017, as follows:

Type of Investment	Fair Value/ Carrying Amount	Weighted Average Years to Maturity
Government-wide statement of net position:		
Certificates of deposit	\$ 1,521,257	3.67
Statement of fiduciary net position:		
Certificates of deposit	<u>409,347</u>	2.88
	<u>\$ 1,930,604</u>	

The deposits are reflected on the financial statements at April 30, 2017, as follows:

Government-wide statement of net position:	
Cash and cash equivalents	\$ 3,050,861
Investments	1,521,257
Restricted cash	297,814
Statement of fiduciary net position:	
Cash and cash equivalents	161,145
Investments	409,347
	<u>409,347</u>
	<u>\$ 5,440,424</u>

NOTE 3. RESTRICTED CASH

Ordinance 05-05 provided for the issuance of general obligation bonds. As outlined in the ordinance, certain assets are required to be restricted and used only for specific purposes. Restricted cash at April 30, 2017, is as follows:

Bond and interest reserve	\$ 144,565
Depreciation, improvements, and equipment reserve	<u>153,249</u>
	<u>\$ 297,814</u>

NOTE 4. CAPITAL ASSETS

Capital asset activity, resulting from modified cash basis transactions, for the fiscal year ended April 30, 2017, is as follows:

	Balance May 1, 2016	Additions	Deletions	Balance April 30, 2017
<i>Governmental activities:</i>				
Capital assets not being depreciated				
Land	\$ 1,413,656	\$ -	\$ -	\$ 1,413,656
Other capital assets				
Land improvements	683,689	-	-	683,689
Buildings	458,541	39,753	-	498,294

Buildings	100,000	-	-	100,000
Utility plant	9,576,043	376,321	-	9,952,364
Water main extensions	2,153,016	120,193	-	2,273,209
Equipment and vehicles	1,623,976	92,937	17,659	1,699,254
Sewer extensions	1,611,211	239,236	-	1,850,447
Stormwater extensions	238,495	197,207	-	435,702
	<hr/>			
Total other capital assets	15,310,477	1,025,894	17,659	16,318,712
	<hr/>			

	Balance May 1, 2016	Additions	Deletions	Balance April 30, 2017
Less accumulated depreciation for:				
Land improvements	\$ 7,736	\$ -	\$ -	\$ 7,736
Buildings	95,000	3,334	-	98,334
Utility plant	6,681,925	257,781	-	6,939,706
Water main extensions	776,638	73,874	-	850,512
Equipment and vehicles	870,345	71,102	17,659	923,788
Sewer extensions	815,169	54,479	-	869,648
Stormwater extensions	4,636	7,950	-	12,586
	<hr/>			
Total accumulated depreciation	9,251,449	468,520	17,659	9,702,310
	<hr/>			
Other capital assets, net	6,059,028	557,374	-	6,616,402
	<hr/>			
Business-type activities, net	<u>\$ 6,165,501</u>	<u>\$ 600,824</u>	<u>\$ -</u>	<u>\$ 6,766,325</u>

Depreciation expense is charged as follows in the Statement of Activities:

Governmental activities:

General government	\$ 3,754
Public safety	51,393
Streets	210,579
Park	32,954
Emergency services	1,710
Economic development	477
	<hr/>

Total depreciation expense for governmental activities	<u>\$ 300,867</u>
--	-------------------

Business-type activities:

Waterworks and sewerage	\$ 460,570
Stormwater	7,950
	<hr/>

Total depreciation expense for business-type activities	<u>\$ 468,520</u>
---	-------------------

NOTE 5. LONG-TERM DEBT

The City's long-term debt arising from cash transactions is segregated between amounts to be paid from governmental activities and amounts repaid from business-type activities.

The changes in the City's long-term debt for the year ended April 30, 2017, are as follows:

	Balance May 1, 2016	Additions	Reductions	Balance April 30, 2017	Amount Due Within One Year
Business-type activities:					
Bonds payable	\$ 490,000	\$ -	\$ 96,000	\$ 394,000	\$ 95,000
Refunded bond discount	(4,508)	-	(1,127)	(3,381)	(1,127)
Total business-type activities	<u>\$ 485,492</u>	<u>\$ -</u>	<u>\$ 94,873</u>	<u>\$ 390,619</u>	<u>\$ 93,873</u>

During fiscal year 2006, the City issued \$1,400,000 in general obligation bonds. These bonds were issued for the purpose of defraying the cost of improving the waterworks and sewerage system. The issue date on the bonds was June 13, 2005, with interest rates ranging from 3.125 to 4.150 percent. On May 15, 2013, the City refunded these obligation bonds, paying down an additional \$300,000 of principal as part of the transaction. The refinanced amount of general obligation refunding bonds was \$686,000, with interest rates ranging from 1.25 to 2.40 percent and maturities through December 15, 2020.

The schedule of principal and interest requirements of the general obligation bonds are as follows:

Fiscal Year	Interest	Principal	Total
2018	\$ 8,680	\$ 95,000	\$ 103,680
2019	6,780	99,000	105,780
2020	4,800	103,000	107,800
2021	2,328	97,000	99,328
	<u>\$ 22,588</u>	<u>\$ 394,000</u>	<u>\$ 416,588</u>

The bonds were refunded at a discount of \$7,889. This discount is being amortized using the straight-line method over the term of the bonds. Amortization expense is \$1,127 for the year ended April 30, 2017.

NOTE 6. GOVERNMENTAL FUND BALANCES

The following is a summary of fund balance classifications as presented in the Balance Sheet for the Governmental Funds.

Restricted fund balances as of April 30, 2017:

Restricted for:	
Street repair and improvements	\$ 287,042
Law enforcement	20,850
Parks and recreation	11,668
Other purposes	<u>691</u>
	<u>\$ 320,251</u>

Assigned fund balances as of April 30, 2017:

Assigned to:	
Pension	\$ 502,478
Law enforcement	152,847
Parks and recreation	<u>90</u>
	<u>\$ 655,415</u>

NOTE 7. INTERFUND TRANSFERS

There was an interfund transfer from the Agency Fund to the General Fund in the amount of \$157,083 due to the dissolution of the Agency Fund as described in Note 1.

NOTE 8. RETIREMENT PLANS AND OTHER POSTEMPLOYMENT BENEFITS

A. Illinois Municipal Retirement Fund

Plan description. The City's defined benefit pension plan for regular employees (Regular Plan) and defined benefit plan for sheriffs, deputy sheriffs, and selected police chiefs (Sheriff's Law Enforcement Personnel Plan) provides retirement and disability benefits, post-retirement increases, and death benefits to Plan members and beneficiaries. These Plans are affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at www.imrf.org.

Benefits provided. The IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3 percent of the final rate of earnings for the first 15 years of service

credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3 percent of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3 percent of the final rate of earnings for the first 15 years of service credit, plus 2 percent for each year of service credit after 15 years to a maximum of 75 percent of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of 3 percent of the original pension amount or 50 percent of the increase in the Consumer Price Index of the original pension amount.

Employees covered by benefit terms. As of April 30, 2017, the following employees are covered by the benefit terms of the Regular Plan:

Retirees and beneficiaries currently receiving benefits	21
Inactive plan members entitled to but not yet receiving benefits	7
Active plan members	<u>10</u>
Total	<u><u>38</u></u>

As of April 30, 2017, the following employees are covered by the benefit terms of the Sheriff's Law Enforcement Personnel Plan (SLEP):

Retirees and beneficiaries currently receiving benefits	-
Inactive plan members entitled to but not yet receiving benefits	1
Active plan members	<u>-</u>
Total	<u><u>1</u></u>

Contributions. As set by statute, the City's Regular Plan members are required to contribute 4.5 percent of their annual covered salary, and the City's SLEP Plan members are required to contribute 7.5 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of their own employees. The City's Regular Plan annual contribution rate for calendar year 2016 was 9.84 percent. There was no required contribution for the City's SLEP Plan for calendar year 2016. For the fiscal year ended April 30, 2017, the City contributed \$53,609 and \$2,000 to the Regular Plan and the SLEP Plan, respectively. The City also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

Actuarial assumptions. The City’s net pension liability for each IMRF plan was measured as of December 31, 2016. The respective total pension liabilities used to calculate the net pension liabilities were determined by actuarial valuations performed as of that date using the following assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	Service-based with increases ranging from 14.50% to 3.75%
Investment rate of return	7.50% per year compounded annually, net of investment-related expenses

Mortality rates were based on the RP-2014 Blue Collar Health Annuitant Mortality Table and the RP-2014 Disabled Retirees Mortality Table, with adjustments to match current IMRF experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic equity	38%	6.85%
International equity	17%	6.75%
Fixed income	27%	3.00%
Real estate	8%	5.75%
Alternative investments	9%	2.65-7.35%
Cash equivalents	1%	2.25%
Total	<u>100%</u>	

Discount rate. A single discount rate of 7.50 percent was used to measure the total pension liability of the Regular Plan and the SLEP Plan. The projection of cash flow used to determine this single discount rate assumed that the plan members’ contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The single discount rate reflects the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.50 percent, the municipal bond rate is 3.78 percent, and the resulting single discount rate for the Regular Plan and the SLEP Plan is 7.50 percent.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the Regular Plan's and the SLEP Plan's net pension liability, calculated using a single discount rate of 7.50 percent, as well as what each plan's net pension liability would be if it were calculated using a single discount rate that is one percentage point lower or one percentage point higher.

Regular Plan

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
Net pension liability (asset)	\$ 674,665	\$ 37,832	\$ (490,183)

SLEP Plan

	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
Net pension liability	\$ 32,548	\$ 20,839	\$ 11,958

The Schedule of Changes in the Fund's Net Pension Liability and Related Ratios and the Schedule of Fund Contributions for each IMRF plan, presented as "Other Information" following the notes to the financial statements, present multiyear trend information about the current net pension liability and contribution deficiency or excess of each IMRF plan.

B. Police Pension Fund

Plan description. The Police Pension Fund's defined benefit pension plan provides retirement, death, and disability benefits to the City's police officers or their beneficiaries. The Plan was established by municipal ordinance on July 16, 2012. Although this is a single-employer pension plan, the defined benefits as well as the employee and employer contribution levels are mandated by Illinois Compiled Statutes (Chapter 40, Article 3) and may be amended only by the Illinois legislature. Further information about the pension fund is provided in Note 1 and as follows.

Benefits provided. Employees attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive a pension benefit of one-half of the salary attached to the rank held by the officer on the last day of service or one year prior to the last day, whichever is greater. The monthly pension shall be increased by 2.5 percent of such salary for each additional year over 20 years of service through 30 years of service, to a maximum of 75 percent of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The Police Pension also provides for annual pension increases for beneficiaries as described in the Illinois Compiled Statutes, which are generally 3 percent of the original pension granted or 3 percent of the pension amount, depending on the individual's date of retirement.

Survivor benefits vary based on the timing of the participant's death. For duty-related deaths, the benefit allowed for survivors is 100 percent of the salary earned at the time of death. For retirement and disability deaths, the benefit allowed for survivors is 100 percent of the benefit being received at the time of death. For survivors of participants who die in service, but not in the line of duty, the benefit is based on the participant's years of service.

Retirement benefits for officers hired on or after January 1, 2011, include the following: The normal retirement age for this tier of officers is 55, with an early retirement age of 50. Officers who enter into early retirement receive a 6-percent reduction for each year they retire prior to age 55. The salary used for retirement will be computed using an average salary representing the 8 highest earning, consecutive years during the last 10 years of service. The salary amount is also limited to a ceiling of \$106,800, with annual increases based on the consumer price index-u. Annual cost of living adjustments will be equal to the lesser of 3 percent or one-half of the annual unadjusted percentage increase of the consumer price index-u. Survivor benefits will be limited to two-thirds of the deceased's benefits at his or her date of death.

Employees covered by benefit terms. As of April 30, 2017, the following employees are covered by the benefit terms of the Police Pension Fund:

Retirees and beneficiaries currently receiving benefits	-
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	<u>6</u>
Total	<u><u>6</u></u>

Contributions. As set by statute, the Police Pension Fund members are required to contribute 9.91 percent of their salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without interest. The City of Eureka is required to contribute the remaining amounts necessary to finance the Plan as actuarially determined by an enrolled actuary; the current rate is 30.72 percent of annual covered payroll.

Net Pension Liability

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of May 1, 2016, updated to April 30, 2017, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	Service-based with increases ranging from 11% to 4%
Investment rate of return	5% per year compounded annually, net of investment-related expenses

Mortality rates were based on the RP-2000 Combined Healthy Annuitant Mortality Table, projected to the valuation date using scale BB, and the RP-2000 Disabled Retiree Annuitant Mortality Table, projected to the valuation date using scale BB.

The significant assumptions for the valuation dated May 1, 2016, are based upon the results of an actuarial experience study performed by the State of Illinois Department of Insurance in 2012.

The long-term expected rate of return on Pension Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the Pension Plan's target asset allocation as of April 30, 2017, are summarized in the following table:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Equity	0 - 10%	N/A
Fixed income	55 - 75%	2.00%
Mutual funds	5 - 10%	N/A
Cash	0 - 25%	0.00%

The Fund has not yet invested in equity or mutual fund investments as allowed per the investment policy. As a result, the long-term expected real rate of return has not been determined for these asset classes. The long-term expected real rate of return for fixed income investments has been estimated using the average interest rate on the fixed income investments, net of inflation.

Discount rate. The discount rate used to measure the total pension liability was 5 percent. The discount rate was based on the expected rate of return of 5 percent and the municipal bond rate of 3.71 percent, based on the weekly rate closest to but not later than the measurement date of the Bond Buyer 20-Bond Index as published by the Bond Buyer. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that Fund contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the Fund, calculated using the discount rate of 5 percent, as well as what the Fund's net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher.

	1% Decrease	Current	1% Increase
	4.00%	Discount Rate 5.00%	6.00%
Net pension liability (asset)	\$ 160,807	\$ 24,581	\$ (82,328)

The Schedule of Changes in the Fund's Net Pension Liability and Related Ratios and the Schedule of Fund Contributions, presented as "Other Information" following the notes to the financial statements, present multiyear trend information about the Plan's current net pension liability and contribution deficiency or excess.

C. Social Security

All City employees are covered under Social Security. The City paid Social Security taxes of \$73,202 for the year ended April 30, 2017.

D. Postemployment Health Insurance

All non-union City employees who retire with 20 or more years of continuous service are eligible for extended healthcare coverage. The City subsidizes the cost of premiums for the retired employee in accordance with the following formula:

- 1) 2.5 percent of monthly premium for each year of continuous service with the City, not to exceed 30 years (75 percent).
- 2) Effective upon the employee reaching 59.5 years of age and terminating upon the employee's eligibility for Medicare coverage.

As a result of using the modified cash basis of accounting, estimated liabilities related to postemployment health insurance are not recorded in the government-wide or fund financial statements. Expenditures/Expenses related to the Plan are recorded when paid. Expenditures of approximately \$3,800 were made during the year for postemployment health insurance. One retired employee was eligible to receive benefits during the year ended April 30, 2017.

NOTE 9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; workers' compensation; and natural disasters. The City purchases commercial insurance for those risks of loss, with the exception of workers' compensation. For risk of loss related to workers' compensation, the City has joined the Illinois Public Risk Fund (IPRF), a public entity risk pool currently operating as a common risk management and workers' compensation insurance program for public entities and governmental agencies throughout Illinois. The City pays annual premiums for its insurance coverage, except for employees' health and accident insurance. The City carries insurance through United Healthcare for employees' health and accident risks. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

IMRF REGULAR
SCHEDULE OF CHANGES IN THE FUND'S NET PENSION LIABILITY
AND RELATED RATIOS – IMRF REGULAR (UNAUDITED)
APRIL 30, 2017

Notes to schedule:

Changes in assumptions:

For the year ended December 31, 2016, amounts reported as changes of assumptions were the result of updating the mortality table to better reflect anticipated mortality experience in the future. The Healthy Lives Mortality assumption was updated from the RP-2000 Combined Healthy Annuitant Mortality Table to the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match the current IMRF experience. Similarly, the Disabled Lives Mortality assumption was updated to the RP-2014 Disabled Retirees Mortality Table with adjustments to match the current IMRF experience. The Disabled Lives Mortality assumption was previously based on the rates applicable to non-disabled lives set forward 10 years. For the year ended December 31, 2015, amounts reported as changes of assumptions were the result of updating assumptions to adhere to those required under GASB Statement 68.

Calendar Year Ending Dec 31,	Actuarially Determined Contribution	Recognized Employer Contribution	Contribution Deficiency (Excess)	Covered- Employee Payroll	Contributions as a Percentage of Covered-Employee Payroll
2016	\$ 53,608	\$ 53,609	\$ (1)	\$ 544,796	9.84%
2015	69,218	69,217	1	547,609	12.64%

Notes to Schedule:

Valuation date: Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll
Remaining amortization period	27 years (as of December 31, 2016)
Asset valuation method	5-year smoothed market
Wage growth	3.50%
Inflation	2.75%
Salary increases	3.75% to 14.50% including inflation
Investment rate of return	7.50%
Retirement age	Experience-based table of rates specific to the type of eligibility
Mortality	For non-disabled retirees, disabled retirees, and active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). For non-disabled retirees, the IMRF-specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match the current IMRF experience. For disabled retirees, the IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, the IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

CITY OF EUREKA, ILLINOIS
INFORMATION REQUIRED BY GENERAL OBLIGATION BOND ORDINANCE
ENTERPRISE FUNDS (UNAUDITED)
APRIL 30, 2017

The following information is required to be included in the report by Section 17 of General Obligation Bond Ordinance 05-05.

1. Statement in detail of the income and expenditures of the system for the fiscal year. See the Statement of Revenues, Expenses, and Changes in Fund Net Position – Modified Cash Basis – Enterprise Funds.
2. A balance sheet as of the end of the fiscal year, including a statement of the amount held in each of the accounts of the system fund. See the Statement of Net Position – Modified Cash Basis – Enterprise Funds and Note 3 to the financial statements.
3. A list of the insurance policies in force at the end of the fiscal year. See the Schedule of Insurance Policies in Force.
4. A summary of rates in effect at the end of the fiscal year for services of the system and any changes in such rates during the fiscal year.

Water	\$6.12*
Sewer	4.12*
Stormwater	6.00**

* Rate per 1,000 gallons

** Rate per equivalent residential unit

5. The amounts and details of all outstanding bonds. See Note 5 to the financial statements.
6. Independent auditors' comments regarding the manner in which the municipality has carried out the requirements of the ordinance.

Ordinance requires the establishment of the following accounts:

Operation and maintenance account
Bond and interest account
Depreciation, improvement, and extension account
Surplus account

Restricted asset accounts have been established and transfers have been made to these accounts during the current year as required.

The restricted asset accounts are reported as restricted net position.
